Description

Property Code | YPS-02-0054

The Ranch Wotoch Keej is beautifully located in the green, hilly hinterland of San Francisco de Campeche, the capital of the state of Campeche, in southeastern Mexico. With its 31 ha (77 acres) of land and complete facilities, the property is suitable both as a commercial farm and as a residence with the possibility of self-sufficiency. Due to its proximity to the city of Campeche, with its beautifully restored colonial center, the ranch also offers ideal conditions for tourist use.

The ranch's main house offers two bedrooms, a bathroom, a large, open living area with a kitchen, living and dining room as well as a covered terrace. A second building is currently used to house the ranch staff and is also available as living space after appropriate adaptations. The living area of the ranch is completed by a large recreational area with a palapa roof, a pool, and restrooms.

The facilities of the farm area are just as well maintained as the buildings of the living area. In total, there are four horse stables, a goat stall, a chicken coop, and a large storage room. In addition, there are two huts, which are not yet completely finished, in the rear part of the site.

In addition to the property and the buildings, the sales price includes numerous farm and wild animals as well as three off-road vehicles. Further information on the equipment and the location can be found in the following sections FACTS and LOCATION.
