Location

The idyllic and extremely sought-after La Ceiba residential complex with its attractive 18-hole golf course is located in northern Mérida near the famous Mayan site of Dzibilchaltún. The history of the resort dates back to 1969, the year visionary architect Felix Mier y Terán and his partner Vicente Erosa brought golf to Yucatan. Together they bought the land of today's Golf Club, designed the layout of the course, and built the first houses. At the time, both founders advertised extensively in American golf magazines to inspire retired Americans interested in golf to live in Yucatan around their beloved sport. Hardly imaginable today, the first colonial-style homes with 300 m² (3,229 ft²) lots cost only USD 33,000 at the time. A truly attractive offer!

In 1988, the club was extensively remodeled to make it what it is today, one of the most sought-after residential communities in Yucatan, as well as a place of sport, relaxation, and well-being for families and golfers alike. In addition to the challenging 18-hole (72 par) golf course, the complex offers numerous other opportunities for sports and recreation around its clubhouse, such as tennis courts, a swimming pool, a gym, a restaurant and bar, and many more. Permanent Golf Club members, as well as interested parties with shortened membership or day visitors, are pleased about the equipment rental, golf carts, a practice field, a putting green as well as a pro shop. Numerous tournaments held on the premises throughout the year increase La Ceiba's popularity among golf enthusiasts residents and foreign participants.

The attractiveness of La Ceiba Golf Club as a place to live, in addition to its good facilities and well-maintained grounds, is further enhanced by its proximity to some of the best educational institutions in the country. Not far from the club's facilities are the campuses of the University of Anáhuac Mayab and the Madison International School. With its 30-year history and more than 8,000 graduates in some 25-degree programs, Universidad Anáhuac Mayab is the most important private university in the Southeast. Focused on internationalism and multilingualism, the Madison school has teachers of art, French, Chinese-Mandarin, engineering, music, neuromotor development, and many more. It, too, is considered among the leading teaching institutions of its kind in the country.

Also, in close proximity to La Ceiba Golf Club are numerous other attractions such as the aforementioned Mayan sites of Dzibilchaltún, the renowned GNP Seguros Events Forum, the Great Museum of the Mayan World in Merida, and the popular malls Galerías Mérida and The Harbor. The beautiful beaches of Progreso are also within easy reach via the eight-lane highway that connects Mérida with Progreso.
